introducing
THE CONNELLY COLLECTION
 an exclusive range by Crystal Fires

With 25 years of experience in award winning design & manufacturing, we at Crystal Fires are proud to introduce our new outstanding range of high efficiency glass fronted gas fires.

The Connelly Collection combines elegance, performance and innovation and is manufactured to an exceptional build quality in our factory right here in the UK.

The range consists of four versatile models that can either be supplied as a contemporary hole in the wall feature, or alternatively as part of a complete fireplace suite to achieve a far greater visual impact than you get with a standard living flame gas fire package.

To ensure that you receive the best service tailored to your individual needs; this exclusive collection is only available from specially selected premier showrooms throughout the UK.

Please visit crystalfires.co.uk to find your nearest dealer.

Ian Connelly
 Director

Chris Connelly
 Director

We are one of the few surviving UK manufacturers remaining in our industry.

We undertake the complete design and manufacturing process, from the initial metal fabrication, right up to the painting and powder coating of any of our trims.

TRIM FINISH OPTIONS

- Metal Trims
- Brass
- Satin Brass
- Chrome
- Brushed Steel

POWDER COATED FINISHES

- Black
- Star Black
- Graphite
- Star Graphite
- Bronze
- Textured Cream

(Please check each individual fire model for the trim finish available)

RENO with chrome trim and 22" Aviva Fret

MADISON shown here as a trim-less 'Hole in the Wall' feature

TULSA pictured here as a trim-less fire in a Limestone fireplace suite

DENVER with brushed steel 4 sided trim

RENO with brushed steel 3 sided Royale trim.

All the fires in the
Connolly Collection have a
CLEAN FLAME BURNER

Resulting in:

- A more efficient flame
- Less carbon/soot build-up
- Greatly reduces coal bed & glass cleaning.

Shown with panoramic trim

As a trim-less feature
