

CRYSTAL FIRES CF1L INSTRUCTIONSADDENDUM SHEET

The new burner design for this model now has a 10mm tray fitted to the top of the main burner ,this tray must be filled with mica fill to disperse the gas evenly and assist cross lighting **UNDER NO CIRCUMSTANCES SHOULD THE BURNER BE USED WITHOUT BEING FILLED WITH MICA FILL**

BURNER TRAY FILLED WITH MICA FILL SHOWN ABOVE.

The mica fill should be level with the top as shown above and should not be overfilled
Once filled continue with main installation instructions to fit granules and chosen fuel type.

It is recommended periodically to remove mica fill and vacuum the burner removing any blockages in burner gauze

Then replace the mica fill level with burner as above
